TO THE SECURITY HOLDERS AND OTHER CREDITORS OF THE

Chesapeake and Ohio Railway Co.

bonds, and other obligations of the Chesapeake and Ohio Rail way Company, we have acreed to co-operate in the reorgan-ization of the affairs of that company; and at our suggestion, Mesars, C. H. Coster, R. J. Cross and Anthony J. Thomas have undertaken to act as a committee to carry the reorgan ization into effect.

The Chesapeake and Ohio Railway extends from Newport News to the Big Sandy River, there connecting with lines to the Southwest. An important extension along the Ohie River from Ashland to Cincinnati (including a bridge across the river at that point) was undertaken some time ago by separate companies, but, owing to its expensive character, has not been completed, although about \$5,000,000 have has not been completed, although about 50,000.000 already been spent upon it. This line, if secured for the Chesapeake and Ohio, would bring it in direct connection with the railways to Chicago and the eatire West and Northwest, and obtain for it business of which it now receives only a small part by circuitous and expensive routes and under great disadvantages.

The reorganization includes this new line and bridge, which will represent, when completed, an estimated expendi-ture of at least \$8.800,000 in actual cash, for the settlement of which provision is made in the reorganization, and a syn-sicate has already been formed to guarantee the required funds, from sale of bonds and from assessments on stock, as detailed further on.

The reorganization further contemplates the reduction of fixed charges to a sum approximating the present net erranga as published, of the Chesapeake and Onio Railway, irreapective of the new line, which should prove a valuable acqui-sition in itself, and should also add largely to the earning capacity of the reorganized company, and impart additional eaf ty and permanent value to the several classes of new
